MARIN HEALTHCARE DISTRICT

We're transitioning to district-based elections.

Find out what this means for your neighborhood.

Marin Healthcare District is transitioning from an at-large election system, where the entire jurisdiction votes for each person on our five-member Board of Directors, to a district-based system. **A five-district map will be drawn, and each district will vote for a single board member to represent them.** Input from residents is key to creating a fair and representative map. We hope you will attend one of our virtual public meetings to share your thoughts about the drawing of the new map. Your input counts!
